EDUCATION

University of Toronto

Bachelor of Science in Computer Science, Minor in Statistics

Toronto, ON

Sep. 2017 – Dec. 2022

EXPERIENCE

Ontario Ministry of Children, Community, & Social Services

Software Developer

Toronto, ON

May – Dec. 2021

- Worked with QA team to formulate a testing plan, drawing on knowledge of testing and web forms, as well as Jira and Agile processes, leading to user stories being completed on schedule.
- Wrote SQL scripts to generate and collect test data, resulting in increased productivity.

Blackstone Energy Services, Inc.

Full Stack Developer

Toronto, ON

Jan. – Apr. 2020

- Worked on weather data gathering project, employing skills with REST APIs, web services, and database programming in order to collect and analyze data from multiple locations.
- Tested internal brokerage software, leveraging knowledge of unit testing, C#, and the MSTest framework, greatly increasing test coverage.
- Upgraded company website using skills with .NET and JavaScript, ensuring stability and security.

PROJECTS

YrMix

github.com/jwoodger/yrmix

Mar. 2023 – Present

- Wrote project to organize playlists, using experience with MongoDB, React.js, Node.js, and Typescript to build a fully-featured application.
- Tested major parts of the program, employing skills with Mocha, databases, and REST APIs to minimize bugs.
